As an expertise company that provides turn-key services beginning from design stage, up to the operation and maintenance stage of the works involved, SASEL signed two new contracts in Russia and Azerbaijan.

With the contract signed on 27 August 2013, SASEL undertook the electromechanical works of the Shahdag Tourism Center currently being built in Azerbaijan. The project consists of the construction of a hotel and other facilities on an area of 2,058 hectares within Shahdag National Park.

In addition, SASEL will also carry out the electrical works of the Almaz Shopping Mall, being constructed in Chelyabinsk, Russian Federation. Almaz Shopping Mall, planned to be opened in the second half of 2015, will be the largest shopping and entertainment center of its region.
